ANNOUNCEMENT PROGRAM

ASIA 2023

Welcome

Redefine What's Possible.

IMCAS Asia 2023 is excited to return to Bangkok to explore new avenues of medicine and foster the advancement of dermatology, plastic surgery, and aesthetic treatments.

In the eastern hemisphere, Thailand is among the forefront of today's modern specialty subjects, and a center hub of Asia, holding much the region's new science, research, practicing methods, and educational congresses. Gathering a broad community of physicians and experts, our mission is to combine the practicing worlds of the East and West and to share the pearls of wisdom arising in modern-day aesthetic practice.

For this year, IMCAS Surgery will take on the complexities of procedure by featuring experts who will present an interdisciplinary study of their own methods and combined techniques for facial rejuvenation, breast augmentation, and gender reassignment. Dedicated sessions will also explore recent methods in transgender procedure, with top practitioners and regional scientific societies, to master the skills required for transgender treatments.

The Anatomy on Cadaver Workshop will advance with new sessions on injection for the face and body. Incorporating simultaneous live procedure and cadaver dissection, participants can experience the full scope of differentiated technique performed on both Caucasian and Asian morphotypes.

The Clinical dermatology module will examine the effects of melasma that commonly presents in Asian skin. From diagnosis to treatment, understand the various approaches for differing skin qualities and colors, and how to best treat the pigmentary disorders of various ethnic skin types. Within regenerative treatments, the 2023 program will be comprehensively explored by scientists and clinicians to promote new research and safer practicing methods. Leading innovators will take the stage for roundtable discussions on exosomes research, and additional sessions will cover advanced aesthetic longevity science and the importance of complete body care.

NextGen Dermatology and NextGen Surgery courses will continue to support intergenerational medicine and mentorship for our future physicians. This invaluable opportunity builds the confidence of practicing young physicians, with unbiased medical sessions and in-depth anatomy demonstrations, so attendees can gain insights from world experts.

With a strong objective to support higher-level medical education, this 16th edition of IMCAS Asia promises to be an outstanding event of warm Thai hospitality, smiles, and the latest science! We look forward to welcoming you this June to redefine the possibilities of modern aesthetic treatments and patient care, together.

FEEDBACK FROM OUR PREVIOUS IMCAS ASIA

Rachmaniar Pramanasari
Plastic Surgeon
Indonesia

"As a young plastic surgeon, I am satisfied with the topics from all the experts. It is really refreshing, and I gain more knowledge in aesthetic surgery."

Keep up the well-organized meeting, already looking forward to the next edition!"

Tan Truong
Cosmetic Surgeon
Australia

"It is a fantastic event, professionally organized and well-run. The speakers are very knowledgeable and experienced. I thoroughly enjoy it!"

Onessa L Daquigan Lacaba
Dermatologist
Philippines

"As a Dermatologist attending IMCAS for the first time, it's an opportunity for learning enhancement, making a memorable interaction with wonderful and friendly doctors in the midst of diverse cultures. Thank you, IMCAS, for the experience of an excellent convention!"

Soe Moe Min
MD
Myanmar

"It's the best aesthetic science conference ever. The programs are very effectively planned with several well-known speakers each hour. A lot more to learn. Really effective program for deep and enthusiastic learners."
